YOU can dodge death, disguise & ignore it. But sooner or later you must die. Alone. How will you face it? As the final end? Gateway to an indefinite "beyond?" Christians say death's finality is defeated for them by the resurrection of Jesus Christ.

AFRAID TO DIE?

Christians affirm He offers the way through death-not a way around it. Christ makes death a door-not to a wispy existence of the soul, but to a fresh, new life that embodies the whole person ... the resurrection and the life everlasting. More complete than this life, with the ultimate joy of real fellowship with God and man-

Christians confront death by uniting with God now, through Christ. And they find not only bold readiness for death, but new zest and joy for all of life. How to die? The question is one of life and death. Request this free bookler, AFRAID TO DIE?

the reckless and the careful investor

(Recognize anyone?)

Here's how to tell one from the other:

Reckless: Flames into action on a tip. Careful: Ignores the tip and settles down for a good hard look at the facts. What does the company sell? What are its prospects? What have its earnings been? What dividends has

The careful investor has information like this before he invests a penny. Not only to help him make intelligent investments. But to help him choose securities that seem most likely to bring him to his goals. Such as a second income from dividends. Or growth in value of his stock. Or the relative stability of value and income that good bonds can provide.

Reckless: Is happily certain the price can only go up. Careful: Knows that the prices of stocks and bonds go down as well as up. That a company may falter or fail, may not continue to pay dividends or interest. But he also knows that as America grows he may have the opportunity to grow wich it through wise shareownership.

Reckless: Thinks all brokers are alike and any broker will do. Careful: Knows that brokers differ-though none are infallible. He's aware that a Member Firm of the New York Stock Exchange is required to observe many Exchange rules, And that he will have the services there of a Registered Representative who has met the Exchange's qualifications. A Member Firm can provide him with many facts essential to farsighted selection of good stock.

Reckless: Plunges with whatever money he has, hoping for

Careful: Watches his income like a hawk. Keeps one eye on the future. From the top he draws enough to pay normal living expenses. Next he puts aside what's necessary to provide for any major emergency. On what remains he plans his
